What's in this month's issue

- **Latest University News** – More than 350 students graduated to rapturous applause and jubilant cheers at UBE celebrated its Winter Graduation ceremony, 2026.
- **Things you need to know this week** – Government sets out affordable housing finance and S106 changes.

Issue 3 – March 2026

Welcome to the University of the Built Environment's e-Library monthly *Knowledge Foundations* publication, a compendium of news and views, research and resources relating to the educational sector and Built Environment.

The e-Library aims to disseminate information, promote current awareness, and share good practices, to assist in the continual professional development of all those working and aspiring to work within the Built Environment/Property and Construction industries.

“The mission of librarians is to improve society through facilitating knowledge creation in their communities.” (Lankes, 2011, p13)

The initial aim of this library current awareness service was to help keep students and staff informed of the education sector and industry-specific news, share current and best practices, highlight the latest research, and identify case studies that will support studying and supplement teaching and learning resources. However, over the years and upon request, the readership has now expanded.

We welcome news and information from readers to include in future editions – please [email us](#).

Happy reading!

Other News

Things you need to know this week:

Government sets out affordable housing finance and S106 changes

- Plans to free up funding for social and affordable homes, get the S106 market "moving again" and establish a social housing taskforce heads *Placemaking Resource's* digest of the latest news.

A package of measures aimed at driving affordable housing delivery has been set out by the government. In an effort to tackle the current lack of registered provider bids for housebuilders' Section 106 affordable homes to be varied. The government says it will work with providers, councils and developers to agree a framework to "get the Section 106 market moving again". An extra £3.5 million will be allocated to councils through the Council Housebuilding Support fund, while registered providers of social housing will be able to access £2.5 billion in loans being made available at 0.1 per cent interest. Councils will also be able to build up to 1000 homes, rather than the current 200, without having to open a new Housing Revenue Account, so saving on administrative costs. The government is also set to establish a social housing taskforce made up of key players from the sector to, it says, "hold the sector to account" on delivery. Alongside these measures, the government announced details of its plans to reintroduce rent convergence, a rent formula that ensures social housing tenants pay similar rents for similar homes, taking account of local incomes and property values, and supports investment in new and existing council homes.

Also, this month –

- Plans to create an innovation district in the West Midlands Innovation Zone have taken a step forward as key bodies have signed up to a collaborative agreement.
- Newcastle City Council plans to regenerate the 300 home

Back to top

Walker suburb, which is the city's largest social housing district.

- English Cities Fund (ECF) has signed an agreement with Gateshead Council to bring forward plans to deliver 1600 homes and offices at Baltic Quarter in Gateshead.
- Liverpool City Region Combined Authority has set out a housing delivery pipeline that could ultimately see more than 64,000 homes built on more than 300 sites across the region.
- Government agency Homes England has entered into a building lease with housebuilder Vistry for the delivery of 750 homes and a convenience store at the former City Hospital site in Birmingham.

Case Study: Greening a top London retail street

- A public realm project has reduced the impact of traffic in a busy London street, delivering benefits for business tenants and shoppers as well as residents and the environment, the author of this article finds.

One of London's grandest and best known streets has undergone the most significant upgrade of its public realm since it was first laid out in the late eighteenth century. Sloan Street has been transformed through a landscaping scheme that has reduced the impact of the traffic and created a greener, calmer and more enticing environment for residents and visitors.

[Back to top](#)

The two-year, £46 million project has been masterminded by landowner Cadogan, which worked with architect John McAslan + Partners and landscape designer Andy Sturgeon Design. Together they have delivered a public realm project that reflects Sloan Street's heritage, while also enhancing its global reputation, wellbeing, social interactive, sustainability and biodiversity.

Challenges – The string of fashion and luxury brands occupying Sloan Street's retail spaces may set the location apart from the typical high street. But, says Andy Harris, director – landscape & urban design at John McAslan + Partners, "Like all retail streets, it is subject to evolving customer behaviours and increasing expectations around experience, quality and place".

Cadogan identified the poor quality of the existing public realm "as a significant risk to the street's future vitality" he says.

Solution – Today, trees and plants form a green edge to the broad pavements of Sloan Street. A reduction in the width of the carriageway enabled the pavement areas to be widened by more than 20 per cent, allowing for the creation of the green edge and creating space for events and activities.

Andy Sturgeon, founder of Andy Sturgeon Design, says, "Our key ambition was to bring visitors and residents into close contact with nature, which is so vital in a city environment." The use of drought tolerant plants – as well as UK-sourced and hardscape materials – has been central to the sustainable design approach of a project.

Analysis: Recognising the broader value of markets

- Local authorities have often struggled to maintain and invest in markets, but measures to evaluate their broader benefits and places are building the value case, the author of this article finds.

Last month (see publication date), Greater Manchester's 10 local authorities launched a partnership to promote their town and city markets. The Greater Manchester Markets Partnership looks to, "drive market growth hand in hand with town centre regeneration," Eamonn O'Brien, leader of Bury Council and cabinet member for sustainable, inclusive growth, said at the lunch event.

Backed by trade bodies the National Association of British Market Authorities (NABMA) and the National Market Traders Federation (NMTF) as well as Greater Manchester Combined Authority, the alliance will share ideas and collaborate to tackle challenges. It plans to measure the social and economic value of markets to inform support for future investment, and to use data, resources and local insight to strengthen markets and secure their role in regional growth. Some of this work echoes that of the London mayor's London Markets Board, which has carried out its own research into the capital's markets and produced a good practice guide for market operators and a toolkit for evidencing and capturing social value. Greater Manchester's move is taking place against a backdrop of continuing change for markets. Like UK high streets, traditional retail markets and their traders are feeling the impacts of changed in shopping habits. Whether they're selling vegetables, bric a brac or even bin bags, traders face continuing stiff competition from online retailers.

For further information, and access to this article, Source: Smit J. (2026), 'Analysis: Recognising the broader value of markets', 15 January, in full.

Coming up: Go ahead for 1600-home Solihull scheme

- Plans to redevelop a shopping centre site with homes, entertainment venues and green spaces lead Placemaking Resource's digest of upcoming projects.

Solihull Council has approved plans for up to 1600 homes as part of a mixed-use masterplan for a shopping centre redevelopment Solihull town centre. Regeneration developer Muse has worked with Solihull Council and architect Howells to bring forward the plans for the Mell Square redevelopment. The proposed neighbourhood, now rechristened Holbeche Place, includes a multi-purpose central district with food, drink and entertainment venues and two new green spaces, Drury Gardens and Poplar Yard. Housing will include build to rent, affordable and market sale tenures.

- Plans to develop a million square feet of research and laboratory space together with homes for 200 keyworkers have been approved by Sutton Council, in south London. The proposal will unlock the next phase of growth at the London Cance Hub.

- Updated plans for the redevelopment of a west London former gasworks site with 8,100 homes and amenities have got the green light. Developer Berkeley Group has already delivered more than 1200 homes in earlier phases of the Green Quarter, in Southall.

Latest News: Construction Management (CM) [February 2026]

How CIOB is reshaping the apprenticeship model

- As apprenticeship reform gathers pace, the Chartered Institute of Building's Steve Conopo argues that competence, not quick qualifications, must remain at the heart of skills development. Apprenticeships continue to play a pivotal role in addressing skills gaps across the built environment sector, particularly as regulatory change has sharpened the focus on qualifications, assessment and demonstrable competence.

Podcast Series: How developers can prepare now for the Building Safety Act series:

How developers can prepare now for the Building Safety Act: Part 1 of 3

The Building Safety Act received Royal Assent on 28 April 2022. With aspect of the new regime unclear, this series of articles looks at what steps developers can take now.

Part 2 of 3 – In Part 2, Shoosmiths discuss the duty holder regime and look at the steps developers can take now to prepare.

Part 3 of 3 – In this final part of this series, Shoosmiths take a look at the new gateway regime for higher risk buildings.

The future of build-to-rent market Real Estate Podcast series

Podcast – Government policy BTR (Build to Rent) from the Shoosmiths' Living team:

Podcast series #1 – The future of BTR (Build to Rent)

Issues discussed in this podcast include:

Performance of the sector; Rent collection rates; Challenges of lockdown restrictions; How buildings and amenity space will change as a result of the pandemic; and where the market is going.

Podcast series #2 – The future of BTR (Build to Rent)

Issues discussed in this podcast include:

Ongoing attractiveness of the sector; Top three things to look for in a BTR scheme; Future challenges for BTR; The role of technology, and BTR housing.

Podcast series #3 – The future of BTR (Build-to-Rent)

In this podcast, the last in this series, issues discussed include Planning reforms; Permitted development rights; Rise of residential in the high street; Fire Safety; and Rent controls / regulations.

FIRE SAFETY

RICS Fire safety Hub

- containing advice for the public, building owners, landlords, corporate occupiers and RICS professionals and information on fire safety on buildings with external wall systems.

Government details fire safety-related changes to planning system

- The government has released details of new requirements in the planning system to bolster fire safety in high-rise residential buildings, in response to the Grenfell Tower Fire.

The changes come in the Ministry for Housing, Communities and Local Government's (MHCLG) plans to introduce 'planning gateway one', which it said would deliver on one of Dame Judith Hackitt's recommendations following her independent review of Building Regulations and fire safety.

The new requirements aim to ensure fire safety matters as they relate to land use planning are incorporated at the planning stage for schemes that involve high-rise residential buildings.

The changes, which came into effect from **1 August 2021** will:

- involve the Health and Safety Executive (HSE) becoming a statutory consultee before permission is granted for development which involves or is likely to involve a high-rise residential building.
- require relevant applications for planning permission to include a fire statement to ensure applicants have considered fire safety issues as they relate to land use planning matters such as layout and access.
- help inform effective decision-making by local planning authorities or the secretary of state so that those decisions reflect and respond to the needs of the local community.

[Back to top](#)

The new requirements will be introduced by making amendments to the Town and Country Planning (Development Management Procedure) (England) Order 2015.

As announced in the Queen's Speech (11 May), the Building Safety Bill is also expected to be introduced this year, which will establish a new building safety regime in England.

Tackling mental health and wellbeing within the construction industry

Tackling mental health and wellbeing within the construction industry continued.

The construction industry reports some of the highest levels of workplace mental ill health.

Over the last three years (see publication date) Mental Health First Aid (MHFA) England has been working with Building Mental Health, the Construction Industry Training Board (CITB) and the Lighthouse Club Construction

[Back to top](#)

Industry Charity to create a freely available, industry-wide framework and charter to tackle the mental health crisis in the construction industry.

[Find out more about the social value of the programme](#)**Related Links:****University of the Built Environment mental health strategy**

The strategy is designed to benefit both university students and staff, having been written with input from both stakeholder groups.

At the core of the document is the vision which states: The University of the Built Environment will take a whole institution approach to develop one community that enables students of all levels along with staff to prioritise mental health and wellbeing.

There are five strategic aims supporting this vision which are:

1. to create a supportive whole university community that promotes positive mental health, and ensures mental health is a key strategic priority.
2. to ensure the university community is informed and aware of the importance of good mental health and works to tackle the stigma surrounding mental health.
3. to ensure appropriate and timely support is provided to those who need it.
4. to develop links with external support services and stakeholders
5. to use data to evaluate and monitor the effectiveness of mental health interventions and inform future strategic development.

Q&A with Harold Samuel Research Prize (HSRP) recipient, Dr Katharine van Someren

Research is a fundamental aspect of university life. It is used to gain a further understanding for assignments and dissertations and by academics to explore topics that will broaden our understanding of society and the world around us. The HSRP is an annual opportunity for those interested in the building environment to submit a research proposal on a topic that could offer sector-changing insights.

What is the relationship between job and financial security and mental health in the construction workplace?

University of the Built Environment (formerly UCEM) spoke with HSRP recipient Dr Katharine van Someren, about her research on UK construction workplace poverty. You can access [UK construction workplace poverty: the impact of financial and job insecurity on mental health](#) on UBE's publication page to learn more about Katharine's research.

Access the article '[Q&A Harold Samuel Research Prize \(HSRP\) recipient, Dr Katharine van Someren](#)' in full.

Understanding Mental Health in the Built Environment

In May 2020, the CIOB published their report on Understanding Mental Health in the Built Environment. The report, which surveyed people across the globe, presented harrowing statistics of high numbers of workers experiencing extreme levels of stress over a prolonged period, with many people reporting that they had considered taking their own life in 2019.

National Trust planning principles

National Trust (NT), a charity that works to preserve and protect historic places and spaces – for ever for everyone.

The National Trust protect historic houses, gardens, mills, coastline, forests, woods, fens, beaches, farmland, moorland, islands, archaeological remains, nature reserves, villages, and pubs. While they are very passionate about open spaces and historic places, they also work hard in other areas too, including the environment, food, farming, transport, and heritage – to name but a few.

Most of the work they do though is affected by much wider global issues, which is why their interests extend far beyond just bricks and mortar.

[Back to top](#)

National Trust (NT) – “Our planning principles”

The National Trust principles are used to guide them in their decision-making on the way land is developed and managed and include:

1. **Seeking to influence** – The NT seek to influence the planning system at local, regional, and national levels,
2. **Supporting spatial planning** – The NT support spatial planning which takes a holistic approach to its environment and its resources,
3. **Sensible management** – The NT promotes the wise management of the natural environment and built and cultural heritage,
4. **Protecting our environment** – The NT will seek to protect wild and remote landscapes from built development or urbanisation.
5. **Using property management plans** – In managing its land through management plans, the NT will support and help to achieve objectives,
6. **Objecting to proposals, where appropriate** – The NT object to land use or marine-based proposals that have a significant adverse impact on its properties and their settings and context, or in its wider interests.
7. **Using a sustainable construction approach** – When proposing development on their land to meet justified needs, the NT will use a sustainable construction approach.

This will include the following:

- Minimising resource use and generation of waste,
- Being energy efficient,
- Minimising or preventing all types of pollution and risk of flooding,
- Safeguarding important wildlife, landscape, and historic interests,
- Respecting local/regional distinctiveness, supporting local sources for goods and services where practical, and
- Encouraging community involvement and access.

RIBA Plan of work 2020

RIBA Plan of Work 2020. This blog takes a look at the new RIBA Plan of Work 2020.

What is the RIBA Plan of Work? The Royal Institute of British Architects (RIBA) first published the RIBA Plan of Work. in 1963. It originally provided a matrix to show the roles of participants in the design and construction processes. It has since been updated in several editions, most recently in 2020. This has allowed it to adapt to the complexity of modern projects, industry demands and legislative and regulatory requirements.

What changed in 2020? In 2020, key changes were made to reflect the importance of sustainability and Building Information Modelling (BIM) in construction. The Plan of Work now also incorporates issues such as digitisation of the industry, Modern Methods of Construction, ethical issues, the value of aftercare and timing relating to planning applications and procurement.

[Back to top](#)

This has included restructuring and renaming of the work stages from the 2013 Plan of Work:

0 – Strategic definition – no change

1 – Preparation and briefing – brief amended to briefing

2 – Concept design – no change

3 – Spatial coordination – formerly Developed design

4 – Technical design – no change

5 – Manufacturing and construction – formerly Construction

6 – Handover – formerly Handover and close out

7 – Use – formerly in use

What does OS data tell us about the Warm Homes Plan challenge?

- Where should the government be directing the billions of investment for the Warm Homes Plan? Ordnance Survey (OS) has reviewed its data to highlight the hot and cold spots.

OS analysed around 23.6 million homes across Great Britain using the OS National Geographic Database (OS NGD). With more than 600 million features, the OS NGD was used to identify trends and compare physical characteristics of homes using a heat index score to assess how easy they are to heat and which households might be more vulnerable when temperatures drop.

[Back to top](#)

The analysis considered:

- Connected homes – properties with shared walls, such as terraced or semi-detached properties, retain heat better than detached houses;
- period of construction (age of building) – older properties built before 1960 are less likely to have cavity walls, insulation or double glazing; and
- construction material – homes built with insulating materials lose heat more slowly.

Initial analysis confirms real-world experience: urban areas generally have a lower heat-loss risk – likely due to the urban heat island effect, higher ambient temperatures and denser, often newer housing stock.

- Input from RICS Professionals ensure RICS surveys are leading indicators in the real estate industry.

UK Economy and Property Market Update, December 2025

- Challenging economic outlook remains a drag on real estate and construction.

Summary: The recent Budget confirmed the subdued outlook for the economy reflecting, in part, the belated lowering of the productivity assumption that forms an integral part of the analysis. The downbeat tone to the message is also being reflected in key real estate and construction indicators with activity generally flatlining. Forward-looking metrics remain a little more positive, but it remains infrastructure that is showing the most solid trend. A modest improvement is envisaged for housing development aided by the passage of the Planning and Infrastructure Bill.

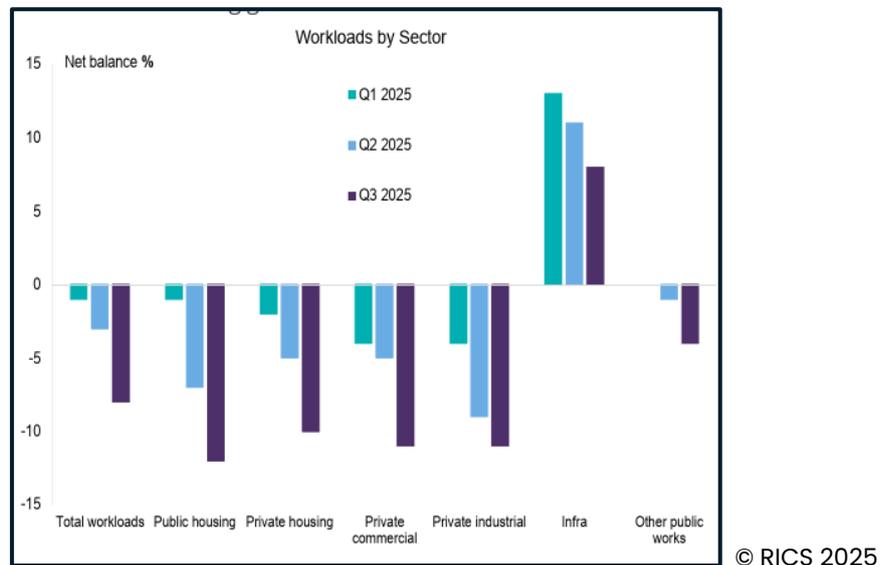

Construction Sector

The latest ONS data shows construction activity edged up by 0.1% in Q3 compared with the previous quarter. While the validity of this data has been questioned in recent months, the feedback broadly aligns with the latest *RICS UK Construction Monitor*. At the aggregate level, total workloads remain flat, with sentiment softening slightly from Q2 (net balance -3%) to Q3 (net balance -8%). Compared with Q2 2025, workloads at the sectoral level (Chart 10) weakened further in Q3, with public housing falling from -7% to -12%, private housing from -5% to -10%, private commercial from -5% to -11%, and private industrial from -9% to -11%.

Note: Previous quarters have been covered extensively within *Knowledge Foundations*. Current and archived copies are available via section 6 of the VLE e-Library as well as the Research Repository.

[Back to top](#)

Chart 10: Subdued trend in workloads continues with only infrastructure seeing growth

Source: RICS Economics Research: *RICS UK Economy and Property Market Update* (December 2025), London: RICS, p5 – Chart 10.

[Read the full piece of research 'RICS UK Economy and Property Market Update', December 2025](#)

Also:

[UK Economy and Property Market Chart Book, Q4 2020](#)

– Output is likely to drop again the last quarter of the year (see publication date).

[UK Residential Market Survey: December 2025](#)

– Activity levels remain subdued for now, but forward-looking metrics turn noticeably more positive.

- New buyer enquiries and agreed sales indicators still in slightly negative territory,
- Aggregate house prices continue to display marginally negative momentum, and
- Both near-term and twelve-month sales expectations turn significantly more positive.

The December 2025 *RICS Residential Market Survey* reveals that market activity remains subdued, with both buyer demand and agreed sales continuing to register negative readings. However, there are encouraging signs of a shift

[Back to top](#)

in sentiment, as respondents express greater optimism around the outlook of sales, both over the near-term and for the year ahead. This improved confidence appears to be underpinned by expectations of further monetary policy easing, alongside the removal of Budget-related uncertainty which had weighed on the market in recent months (see publication date).

The new buyer enquiries indicator registered a headline net balance of -24% in December, still clearly negative albeit slightly less so than the -30% posted last time. Moreover, this now represents the sixth successive negative reading, confirming that the market has been operating at a subdued level for a fairly sustained period.

[Read the latest RICS UK Residential Market Survey: December 2025 in full.](#)

RICS – SPACIOUS 千居 Hong Kong Residential Monitor / Market Survey: December 2025

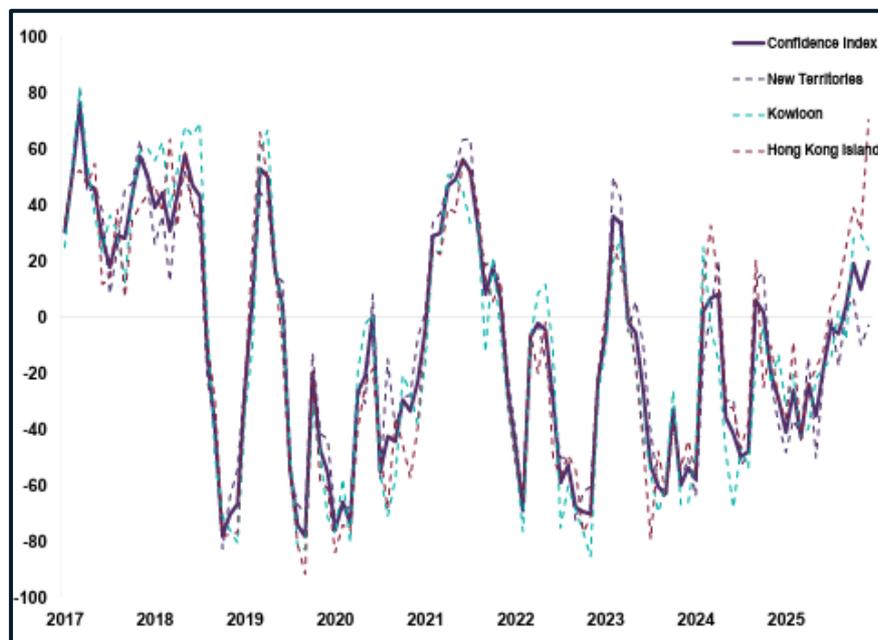

- Sales and lettings activity remains firm as confidence grows.

- Buyer enquiries continue to gain traction with growth in owner-occupier demand still dominant,
- Headline house prices rise although there are large regional disparities, and
- Supply-demand imbalance continues to drive rents higher.

The December 2025 edition of *RICS-Spacious Hong Kong Residential Property Monitor* points to a further improvement in overall market sentiment, with the headline Confidence Index (Chart 1) rising from +10 to +20. As such, this signals a clear strengthening in conditions across the sales and lettings markets as activity continues to recover. In addition, and also covered within this *RICS – Spacious HK Residential Property Monitor*: ▪ Sales market conditions remain solid, ▪ House price momentum strengthens, and ▪ Rental market remains tight.

– *RICS-Spacious HK Residential Monitor* is a monthly guide to the trends in HK’s housing market. The report is available from the [RICS website](#) along with other surveys covering global housing, commercial and land markets, as well as construction industry.

Global Commercial Property Monitor (GCPM), Q4 2025

– Market confidence remains subdued, although tentative optimism is emerging that headwinds may start to ease.

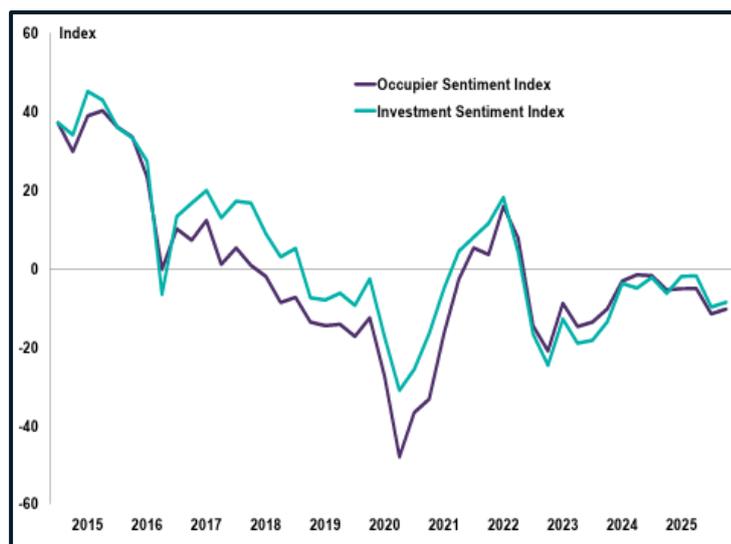

- Occupier demand remains soft across all sectors at the national level,
- Investment enquiries yet to see any significant turnaround, with negative reading still being reported across the office and retail sectors,

[Back to top](#)

- Prime commercial real estate capital value and rental growth projections upgraded slightly for the year ahead.

Occupier Market – For the Occupier Sentiment Index (Chart 1), the latest reading of -10 represents a marginal improvement from -12 in Q3, though it remains consistent with subdued momentum. Driving this, tenant demand continued to fall during Q4, posting a net balance of -9% at the all-property level. With this breakdown, the retail sector continues to see the steepest decline, registering a figure of -21% (unchanged from Q3). Meanwhile, the corresponding net balance readings for the office and industrial sectors were -5% and -2% respectively, both showing marginally less negative trends than last quarter (-4% and -6% in Q3).

Construction Industry highlights

Construction Industry highlights include –

Construction output in Great Britain: November 2025–

– Short-term measures of output by construction industry in November 2025.

What's covered in the latest bulletin?

- Total construction output is estimated to have fallen by 1.1% in the three months to November 2025; this is the largest fall since March 2023 (1.4% fall).
- Over the three-month period, both new work and repair and maintenance fell by 1.0% and 1.1%, respectively.
- At the sector level, four out of the nine sectors fell in the three months to November 2025; the main negative contributor to the decrease was private housing repair and maintenance, which fell by 3.7%.

Built Environment Research

Latest Policy and Research from:

1) Savills Research

- **LATEST: Market Trends: Savills.com [February 2026]**

Residential Lettings: Prime Rental Forecasts, 2026–2030

The private rented sector has been particularly turbulent over the last five years (see publication date). Supply and demand dynamics have shifted, creating significant swings in rental growth. But in the prime markets, a unique set of factors are at play. This makes the pace of growth over the next five years somewhat different to that of the wider mainstream market.

Source: Savills (2026) Research Article – **'Residential Lettings: Prime Rental Forecasts, 2026–2030'** [online], 6 February 2026.

2025 Forecasts – Global real estate investment: 2025 and beyond

© Savills Market Trends, 2024

- After a sharp downturn in real estate capital markets, sentiment is starting to turn. But how quickly will recovery follow? Savills project global real estate investment will rise by 7% to US\$747 billion in 2024, with further growth to US\$952 billion forecast for 2025.

Back to top

The past 18 months (see publication date) has been notably quiet for global real estate capital markets. In 2023, investment fell to US\$699 billion, the lowest level since 2012, with the first half of 2024 following a similar trend. Much of this downturn is due to cyclical factors, particularly a generational shift in interest rates in most major markets.

But these cyclical factors are starting to reverse. Central banks across major economies have begun to cut policy rates, fears of a global recession have largely been quelled and occupational markets remain resilient. The fundamentals of real estate **continue to attract institutional investors.**

So what do these positive signs mean for future global real estate investment?

We've already seen some early signs of this optimism coming through capital markets. Investment turnover has stabilised, with institutional investors starting to return to the market, increasing their market share to the highest level since 2021.

Savill's forecasts, which cover over 90% of the global market, expect turnover to increase by 7% by the end of 2024, reaching US\$747 billion. This recovery is anticipated to gather momentum in 2025, with investment forecast to rise by 27% to US\$952 billion. By 2026, global activity is expected to surpass the US\$1 trillion mark for the first time since 2022.

Future global real estate investment

© Savills Market Trends, 2024

Source: Savills Research using MSCI RCA, Macrobond, and Oxford Economics.

[Back to top](#)

Global investment throughout this article refers to investment in Australia, Canada, China, France, Germany, Hong Kong, India, Italy, Japan, Netherlands, Singapore, South Korea, Spain, Sweden, United Kingdom, and United States. In total, this represents over 90% of global investment.

Regional investment forecasts – Much of this initial growth is supported by a recovery in Europe. With all major central banks in the region having started rate cutting cycles in the summer, commercial real estate is looking for a lot more attractive. Pricing plays a role here too – values across Europe have corrected quickly, allowing buyer expectations to be met. However, it is important to take base effects into account for context; Europe experienced the largest decline in investment in 2023.

UK Poverty 2025: The essential guide to understanding poverty in the UK

[Back to top](#)

- This report sets out the nature of poverty in the UK in the run-up to 2024's General Election. It also sets out the scale of action necessary for the Government to deliver the change it has promised.

This is the first UK Poverty report to be released under the new Labour Government. Much of the latest data on which this report is based ends before the election. However, using JRF's cost of living tracker, we see the unacceptably high levels of poverty we referred to in last year's report persist, with economic security out of reach for millions of people. This is an urgent problem that the new Government needs to address. There were some helpful pledges in its manifesto on child poverty and ending the need for emergency food parcels, but much more will be needed if they are to be successful in 'Driving down poverty in every part of the country.'

4) The Smith Institute

- The Smith Institute is a leading independent 'think tank' which promotes progressive policies for a fairer society. They provide a high-level forum for new thinking and debate on public policy and politics. Through research, reports, briefings, monographs, events, lectures, education, and their website, the Institute offers a platform for thought leadership on a wide range of topics.

Making retirement living affordable: the role of shared ownership for older people

APPG on Housing and Care for Older People (2023)

The Smith Institute supported the All-Party Parliamentary Group (APPG) on Housing and Care for Older People inquiry and report into the role of shared ownership housing for older people.

The report from the Inquiry Panel highlights and evaluates the key issues concerning the development of the market for shared ownership for older people, with particular regard to the government's current Older People's Shared Ownership (OPSO) scheme. It then, in respective sections on the key issues, comments on the current situation and set out recommendations for improving the offer and supporting the growth of the sector.

[Back to top](#)

Read the full piece of research, 'Making retirement living affordable: the role of shared ownership housing for older people.'

Temporary accommodation at crisis point: Frontline perspectives from London and Greater Manchester

Farrelly, M., and Hackett, P, The Smith Institute (2022)

- This report examines statutory homelessness and temporary accommodation (TA) in London and Greater Manchester.

It is a public policy facing report to shed light on what is currently happening with the supply and demand of TA and to open up a wider discussion around what can be done to improve the situation going forward. It is not intended as an academic or technical comparative analysis of the different boroughs homelessness activities.

The findings and evaluations are based on extensive desk research and one to one interviews with housing officers and other housing professionals, housing providers, investors, politicians, experts, homelessness charities and campaigners. We also hosted two virtual roundtable discussions in the Spring of 2022 on Greater Manchester, chaired by Paul Dennett, Salford City Mayor and Deputy Mayor for Greater Manchester, and on London, chaired by Tom Copley, London Deputy Mayor for Housing and Residential Development.

Where relevant we have highlighted what specific boroughs are doing and have included examples of best practice and new ideas and approaches. We have laced the report with anonymised quotes from the interviews and made reference to the work of the GLA, London Councils, GMCA and other relevant organisations. We have evaluated the data and opinions and on the basis of what we've offered a series of talking points and policy recommendations. The concept of a TA system as used in this report

[Back to top](#)

combines the boroughs' statutory duties under the Homelessness Reduction Act (2017) and their responsibilities under relevant housing legislation and regulations.

The report covers the GLA and the 32 Greater London boroughs and the GMCA and its boroughs (Bolton, Bury, City of Manchester, Oldham, Rochdale, Salford, Stockport, Tameside, Trafford, Wigan). The data was drawn mainly from DLUHC, GLA, GMCA and other official statistics, as well as information collated by the boroughs, housing charities and professional bodies.

Read the full piece of research, 'Temporary accommodation at crisis point: Frontline perspectives from London and Greater Manchester.'

2. High cost of living: Impact on households,
3. Planning policy for quarries,
4. Debate on woodland creation,
5. Clean power targets, and
6. Sustainable Drainage Systems (SuDS).

[House of Commons Library search](#) on 'construction industry' identifies 18 key documents, that incl. 'Taxation in the construction industry', 'CITB – Construction Industry Training Board Levy', and 'The construction industry: statistics and policy, Dec. 2019**' –**

Abstract: Construction industry – employment, new orders, output. **[Construction 2025](#)**, **[The Farmer Review](#)** and the **[Construction Sector Deal](#)** (part of the government's **[Industrial Strategy](#)**).

Key statistics – In 2018, the construction industry contributed £117 billion to the UK economy, 6% of the total.

Economic output in 2018 was slightly down on 2017, the first fall since 2013.

There are 2.4 million construction industry jobs in the UK in Q2 2019, 6.6% of all jobs. There are more construction jobs now than at any time since 2007, although throughout this period, roughly the same proportion of jobs have been in construction.

The construction industry is unusual because of the high proportion of self-employment in the sector – 36% in Q2 2019, compared to the average for the whole economy of 13%.

New orders to the construction industry were worth £61.7 billion in 2017. This is 13% down in 2017, the first fall since 2011. New housing orders accounted for 35% of all construction orders, commercial orders accounted for 25% and infrastructure orders accounted for 19%.

e-Journal Review

Built Environment Industry Journal titles reviewed by the University of the Built Environment e-Library

MODUS

MODUS – the RICS magazine that brings you the latest news and views, expert advice and in-depth features spanning the breadth of the surveying profession around the world.

In the latest digital **MODUS** (**February 2026**),

‘Can prefab housing make a comeback?’ – The US urgently needs more high-quality affordable housing, and several construction technology start-ups are offering manufactured home solutions.

Subject Terms/Keywords: Economics; Housing; Materials and resources; Property finance and investment; Quantity surveying and construction; and Residential.

Latest articles within Modus:

– **‘Surveyors assess the Planning and Infrastructure Act’**
– Will the new increase the pace of housebuilding and major infrastructure projects, spurring economic growth for the UK?

Subject Terms/Keywords: Commercial property; Economics; Housing; Infrastructure; Infrastructure and services; and Property finance and investment.

– **‘Seeds from the sky: using drones to reforest Britain’** – Pioneering trials using drones to scatter seeds across hard-to-reach locations, with the help of geomatics surveyors, could revolutionise woodland creation in the UK.

Subject Terms/Keywords: Environmental management; Geomatics, Land and resources; Rural; Sustainability; and Technology.

[Back to top](#)

Also:

- **'What do surveyors really think of AI?'** – Ahead of the new RICS professional standard on responsible use of AI that comes into effect in March, four experts explain how it's changing the industry.

- **'Lynda Rawsthorne FRICS: A career embracing change'**
- From the Valuation Office Agency to HS2 and leading the UK government's property profession, her career hasn't followed a straight line.

- **'Hammer to fall: valuing Freddie Mercury's auction'** – From the archive: Listen to an interview with the three women responsible for valuing a treasure trove of Freddie Mercury memorabilia for a record-breaking Sotheby's auction.

- **'Let it glow: meet the urban Christmas makers'** – From the archive: In 2021, *Modus* met the team behind the brightly coloured light displays that adorn shopping streets around the world at this time of year.

The most shared articles on Modus in 2024. – Profiles of chartered surveyors with fascinating jobs were a big hit in 2024, highlighting the wide of career paths out there for those entering the profession.

Subject Terms/Keywords: Building surveying; Cities and placemaking; Facilities management; Housing; Projects and people; and Valuation.

What were the most-read Modus articles of 2024? – As another eventful year in the built environment draws to a close, *Modus* brings a roundup of the most popular features RICS published in the last 12 months.

- This year *Modus* has covered topics spanning the built and natural environment, ranging from staircase design to spaceport construction and even surveying shipwrecks.

1. How much are you paid – and should you get more?
2. Sphere, Las Vegas: how green is that screen?,
3. Building Everton's new stadium: 'the people's project,'

[Back to top](#)

4. Boring tunnels: the Las Vegas loop,
5. How Luton Town revamped its stadium in just three months,
6. Could filling empty homes solve the housing crisis?,
7. Stephen Radford MRICS: the pub surveyor,
8. Why AssocRICS paves the way for a career in surveying,
9. Could 3D printed houses transform the built environment?, and
10. Preserving a national treasure: the Royal Albert Hall.

And as a comparison ...**What were the most popular stories of 2023 on Modus? –**

Topics related to climate change and architecture have it into our top 10 most-read articles in 2023.

The Top ten most read articles include the following:

1. Which real estate sector pays the most?,
2. Future-proof: retrofitting commercial property,
3. Brutal or beautiful? The Barbican Estate,
4. Alexandra Revell MRICS: renovating the Royal Albert Hall,
5. At your convenience: the importance of good toilets,
6. From soldier to surveyor,
7. Alan Bainbridge FRICS: transforming the BBC's estate,
8. Buildings that elevated cities: The Shard, London,
9. What are the most important features of office design?, and
10. How to ensure biodiversity net gain in developments.

Subject Terms/Keywords: Commercial property; Commercial valuation; Corporate real estate; Economics; Residential; and Sustainability, and more.

Please note: In addition to *MODUS*, RICS publishes other journals that are free to view online incl.

1. **Construction Journal** – The journal helps **quantity surveyors** and project managers with the technical and professional aspects of their day jobs and keep up to date with developments and practical matters in the profession. It covers topics including contracts, cost

[Back to top](#)

management, procurement, construction law and regulations, communications, and project management skills.

2. **Built Environment Journal** (Incl. Building Surveying, Building Conservation, and Building Control) – Coverage keeps practitioners in the disciplines of building surveying, building control, and building conservation up to date on the latest developments, products, standards, and guidance.
3. **Land Journal** – The journal emphasises the crossovers in these practice areas and their global nature, with articles contributed by experts from all over the .
4. **Property Journal** – The journal contains high-quality technical material in clearly defined sections, as well as some material that crosses professional groups to reach a wider audience.

Advances in Online Education: A Peer-Reviewed Journal

is a peer-reviewed title with an interdisciplinary approach, publishing best practice articles as well as theoretical and applied research and analysis, covering developments in virtual, distance, online, blended and e-learning in a variety of technology-enhanced educational settings.

In-depth articles and case studies scheduled for the new volume, ***Vol 4 (2025-2026)***, and ***Vol 4, Number 1 (2025-2026)*** of ***Advances in Online Education: A Peer-Reviewed Journal*** incl.

Vol 4, Number 2 (2025)

Online Education Papers

1. Microlearning strategies: Engaging online adult learners.
2. 'Lurkers' in the Fashion Business School: A study of learning participation in online classrooms.
3. Integrating LinkedIn Learning through librarian-faculty collaboration: Case studies from a Canadian university.
4. Implementing technology to support clinical skill development - is there a right way? An evaluation study of a unique skills website to support skill acquisition.
5. Utilising Microsoft HoloLens2 to deliver remote clinical placement experiences as part of a simulated placement model in higher education: Challenges and solutions.
6. Exploring the impact of generative AI literacy on teaching practices and pedagogical alignment.

Also:

Vol 4(2025-26) of ***Advances in Online Education: A Peer-Reviewed Journal***

Vol 3 (2024-25) of ***Advances in Online Education: A Peer-Reviewed Journal***

Vol 2 (2023-24) of ***Advances in Online Education: A Peer-Reviewed Journal***

Vol 1 (2022-23) of ***Advances in Online Education: A Peer-Reviewed Journal***

Corporate Real Estate Journal is the essential peer-reviewed, professional journal for corporate real estate executives.

[Back to top](#)

Each quarterly 100–page issue publishes high quality articles and real case studies on new thinking, strategies, and techniques in corporate real estate. It cuts through the deluge of information facing corporate real estate professionals to deliver content, which is authoritative, practical, and relevant by providing a blend of genuine thought-leadership – which expands what can be achieved with corporate real estate – with detailed, actionable advice and ‘lessons learned’ from industry peers.

In-depth articles and case studies scheduled for the new volume, **Vol 15, Number 2 (2025–2026)** of

Corporate Real Estate Journal incl.**Vol 15, Number 2 (2025)****Research Papers**

1. Strategic alignment and leadership influence: The crucial role of senior stakeholder management in modern corporate real estate.
2. Decarbonisation in practice: How landlord–occupier partnerships can develop successful green leases and funding models for sustainable buildings?
3. An algorithmic approach to right–sizing meeting rooms.
4. Shifting expectations: How employee experience is shaping the modern workplace
5. Ten years after: Advancements in using virtual data rooms for real estate transactions.
6. The desk is dead: Hospitality–led corporate real estate design in the era of liberated work.
7. Rethinking risk: How sustainability became a business imperative.

Vol 15, Number 1 (2025)

1. Leveraging data to redefine the purpose of the workplace: A case study on Cisco’s corporate real estate strategy.
2. Outcome–driven workplace design: Evolving activity–based working.
3. Digitalisation technologies in real estate and FM.

Managing Diversity and Inclusion in the Real Estate Sector

Clack A and Gabler J (2019) *Managing diversity and inclusion in the real estate sector* [e-book], Oxon: Routledge. e-ISBN-13: 9780429428975

- *Managing diversity and inclusion in the real estate sector* is the first to place D&I at the centre of successful real estate and construction organisations. It provides guidance to, and most importantly, actions for professionals in the sector who want to make D&I an inherent part of the culture of their organisation. This book has been written to bring the sector up to speed with what D&I is all about and how a D&I strategy can be implemented to secure future success.

Real Estate: The Basics

Forsyth, J. and Wilcox, J. (2022) *Real Estate: The Basics*, Oxon: Routledge. ISBN-13: 9780367725433

- *Real Estate: The Basics* provides an easy-to-read introduction to the core concepts of the industry to students new to the subject or professionals changing direction within the sector. The book encapsulates the key 'need to know' aspects of Real Estate including the 'language' of real estate; its value and contribution to countries' GDP; its primary purpose, whether as an asset

[Back to top](#)

or as a resource; valuation concepts; asset classes; basic concepts of land law, and of landlord and tenant law; the increased role and importance of sustainability and technology; and an overview of the wide range of professionals involved in the industry.

Book of the month: Guide to the JCT Design and Build Contract

Labhrai, S.M. (2025) *Guide to the JCT Design and Build Contract* [e-book]. Oxon: Routledge. ISBN-13: 9781040337601

This book provides a comprehensive guide to the 2024 edition of the JCT Design and Build Contract. It offers a straightforward reference to help practitioners understand the rights and obligations of the parties, and to administrate the Contract in an accurate and timely manner. Part 1 provides commentary on all the key provisions of the Contract, in plain English. Part 2 contains over 300 corresponding resources for the administration of the Contract, by both the Contractor and the Employer. It includes notice and other correspondence templates, checklists, and trackers to assist record keeping.

VLE e-Library Portrait

The aim of the e-Library

The aim of the e-Library is to:

- disseminate information, share good practices, and promote current awareness to assist in underpinning written work,
- add value and depth to our students' study experience, and
- support the continuing professional development of all those working and aspiring to work in the built environment.

Please note: This video was published when we were University College of Estate Management (UCEM)

At University of the Built Environment, we recognise that in an information-rich age and when everyone is pressed for time, it can be a challenge to find good-quality information when you need it.

Whether you are obtaining a qualification, undertaking CPD or researching a particular field, having access to a well-equipped library is essential.

[Back to top](#)

The University of the Built Environment's e-Library (accessed through the Virtual Learning Environment - VLE) is a comprehensive and valuable online resource, enabling students to access a wealth of subject-specific and credible information to support them throughout their studies and career development.

What resources are available in the University of the Built Environment's e-Library?

The e-Library is made up of eleven sections and provides students with around the clock access to online searchable databases from key industry and educational sources, thousands of journals, books, and resources, our entire collection of study materials and published work and dissertation library.

The sections that make up the University of the Built Environment's e-Library:

© University of the Built Environment, 2025

Resources available within the University of the Built Environment's e-Library include - Up-to-date information and online searchable databases from -

[Back to top](#)

Resources available within the University of the Built Environment's e-Library include -

Key educational sources that include- Taylor and Francis Online, Ingenta Connect, Henry Stewart Publications and HS Talks, vLex | Justis, Westlaw EDGE UK, EBSCO Business Source Ultimate, Emerald Insight - access to around 2600 e-Book titles and their entire 'Property Management and the Built Environment' collection of journals, and

Industry-specific sources that include- IHS's Construction Information Service, *Estates Gazette* (EG) digital journal and EG Radius, *Property Week*, BCIS - Building Cost Information Service and RICS's ISURV online information service, NEC (New Engineering Contracts) Academia, BSRIA - Building Services Research and Information Association, and more.

Where to find help - Overwhelmed by the sheer amount of information out there?

Not only do libraries provide us with books to read, but they are valuable tools and resources. The University of the Built Environment's e-Library is continually striving for improvement and changing to meet the demands of today's technology and ever-expanding volumes of knowledge creation.

Note: The work of the University of the Built Environment's e-Library is endorsed by [Emerald Publishing Ltd](#)

Building Better Property Professionals

Property Elite's sole aim is to build better property professionals – supporting your career every step of the way, whether you are completing a RICS accredited degree course, your RICS Assessment of Professional Competence (APC) or simply seeking engaging Continuing Professional Development (CPD).

© 2022 – Property Elite LLP

Property Elite provides training and CPD services for property professionals, including students, APC candidates and corporate clients. Their Hot Topic Highlight blog posts will arm you with the information on the hottest topics – ready to tackle an important client meeting or begin revising for your RICS APC final assessment.

This month [**February 2026**] the **Hot Topic Highlight/Blog – RICS APC Lifeline – Brand New Pathway Guides**

In this week's blog, Property Elite take a look at the brand new RICS APC pathway guides published in December 2025.

RICS have made minor formatting and proof-reading changes to the overview **pathway guide**.

Apart from this, the major changes that you need to be aware of is on page 1, relating to 'choosing your competencies'.

This blog then covers the following:

1. What has changed in relation to choosing your competencies,
2. Confused? and
3. How can Property Elite help?

Building People

Enabling connections for a competent, diverse, and valued built environment workforce

The aim of 'Building People' was to create a technology platform and collaborative network, which enables connections and seeks to reduce the skills shortages across the Built Environment. 'Building People,' a social enterprise that aims to connect people traditionally not involved in the Built Environment sector with employers seeking to plug the skills gap via an online platform.

People Wiki:

What are you looking for?

© Building People 2021

People Wiki (a free, open access knowledge sharing platform for diversity and inclusion, skills and careers, and social value.) is a crucial part of Building People's ambition to create a single platform that brings together a multitude of previously fragmented information, knowledge, resources, opportunities, and needs focused on diversity and inclusion, skills and careers, and social value.

Related Link: University of the Built Environment incubated social enterprise, Building People, becomes a fully-fledged success story – It is an exciting time for Building People as it announces its three-year plan, which focuses on five key areas:

1. **Profile:** Positioning Building People as the go-to source for equality, diversity and inclusion best practice and activities, and though leadership in the built environment,
2. **Partnerships:** Delivering maximum joined-up impact through the growth and development of Building People's supply and demand networks,
3. **People:** Enabling equality of opportunity through the provision of a simpler and more supported user experience in a fragmented careers landscape,
4. **Policy:** Aligning with and supporting the achievement and enhancement of relevant national sector policy and activity, and
5. **Planning:** Establishing a secure future of Building People as a sector-backed movement for collaborative change across the built environment.

[Back to top](#)

UBE's Sustainability Hub

Sustainability supports the University of the Built Environment's vision and core purpose to provide truly accessible, relevant, and cost-effective education, enabling students to enhance careers, increase professionalism and contribute to a better sustainable built environment. **Note:** The University of the Built Environment has a Sustainability Hub within the VLE e-Library where you will find interesting resources, news, articles, projects and publications which support and information 'future skills' for sustainability within the construction, surveying, and property industries.

LATEST: University staff and students can now access the Supply Chain Sustainability School

Reproduced with permission

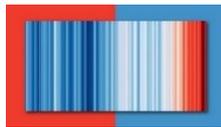

[Back to top](#)

The Supply Chain Sustainability School represents a common approach to developing sustainability competence in the supply chain and is part of a continued commitment to lead the industry into a brighter, more sustainable future.

QSAND and the Sustainability Goals

The UN Sustainable Development Agenda, adopted by world leaders in 2015, maps out a 15-year plan to fight inequality, end poverty and tackle climate change challenges. Quantifying Sustainability in the Aftermath of Natural Disasters (QSAND) is a self-assessment tool to promote sustainable approaches and contributing to aid the achievement of several of these 17 goals in disaster affected global communities:

Libraries' contribution to SDGs

Agenda Vision: Universal literacy

Goal 3: Good health and wellbeing

Goal 4: Contribution to quality education

Goal 5: Culture

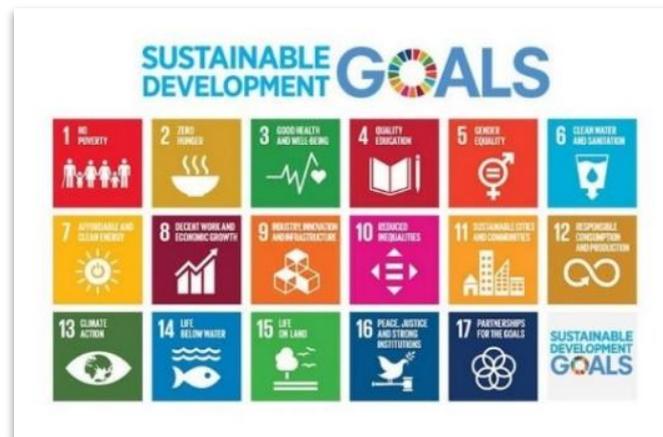

Goals 5, 9, 7: ICT skills and access

Goals 8 & 10: Decent work, economic growth, reducing inequality

Goal 16: Access to information

Note: Information plays a vital role in just about everything we do.

*** Note: Use of Wikis as a reference site**

Wikipedia and use of other Wikis are increasingly being used by people in the academic community, as an easy source of information about anything and everything. However, citation of Wikipedia may not be considered acceptable, because Wikipedia is not a creditable source. It is important to note that whilst Wikipedia may be one of the Web's most popular reference sites, it is not classed as a credible resource because anyone can be a contributor to the website.

This can be avoided by following two simple rules:

- 1)** Remember that an encyclopaedia (which includes Wikipedia and any other Wiki) can be a good starting point for research and not an ending point.
- 2)** An encyclopaedia can be good for getting a general understanding of a subject before you extend your study of the subject further. But you then must consider the subject in more depth using books, journals articles and other appropriate and credible resources. What you find in these other sources of information will be more detailed, more precise, and more carefully reasoned than the summary you found in an encyclopaedia. The sources you reference/cite in your work will therefore be these more detailed sources you have used.

University of the Built Environment signs up to CIC's new 'carbon zero' climate action plan

University of the Built Environment (formerly UCEM – University College of Estate Management) is one of the institutions which has signed up to the Construction Industry Council's (CIC) new climate action plan.

CIC's Climate Change Panel, chaired by its deputy chairman, Stephen Hodder MBE, led on the initiative, with signatories to the plan agreeing that:

CIC BUILT ENVIRONMENT
PROFESSIONS TOGETHER

Carbon Zero: the professional institutions' climate action plan

The signatories to this Action Plan agree that:

- the actions listed are necessary for dealing with the challenge of climate change;
- they will implement those actions appropriate to them as an institution/organisation; and
- they will support the other signatory institutions and organisations in delivering the remaining actions

© CIC 2021

The document, entitled 'Carbon Zero: the professional institutions' climate action plan,' was released last week and coordinates the efforts of built environment institutions in meeting the UK government's 2050 net zero emissions target.

To read the plan, head to the [CIC news story – 'CIC launches a Carbon Zero climate action plan for Professional Institutions'](#).

[Back to top](#)

5 practical tips for saving energy costs

- The cost-of-living crisis has spread across the globe. Significant increases to the cost of food and energy have outstripped worker's salaries, and spiralling inflation has plunged countless into poverty. While the tenth day of COP27 focussed on the decarbonising our energy systems, University of the Built Environment looked at practical ways to save energy that can be actioned without spending too much money.

1. Avoid leaving appliances on standby - The average UK household spends around £65 a year on appliances that are left on standby. This is the energy consumed by an appliance when it is not in use and not switched off at the socket. You may not think about the devices that have low-level usage when not in use, such as broadband, smart speakers and telephones, but these are the ones that are usually turned on for 24 hours a day and the amount of electricity they consume adds up.. By remembering to switch off devices more often or buying a standby saver, you could be saving yourself electricity you didn't even know you were consuming.

2. Draught-proofing windows and doors - Draught-proofing is one of the most affordable and effective ways to save energy costs. It allows you to keep the warm air in your home by blocking out unwanted gaps that let cold air in – ultimately requiring less energy to heat up your home. By draught-proofing your windows and doors, you could save around £60 a year in a semi-detached house. Similarly, you could also save around £90 a year by draught-proofing an open chimney when not in use. A lot of draught-proofing can be done through simple DIY tasks at home, or professional draught-proofing can cost a bit more but last you longer.

3. Use your thermostat effectively – A large portion of your heating bills are absorbed by heating and hot water costs. By doing something as simple as turning down your central heating by just one degree, you could be saving up

[Back to top](#)

to £80 a year. You could also invest in a smart thermometer, which will heat your home more efficiently by only warming the room in use. They can be controlled by your phone and adapt to how long it takes to warm a certain temperature, so it can be set at exactly the right time.

4. Monitor your water usage – Water waste is something we may not realise is happening in our homes, but they add up and result in a large amount of total energy and water use. A dripping tap can waste more than 5,300 litres of water a year, so it's important to keep an eye on even the smallest amounts of water waster in the homes. By spending one minute less in the shower each day, a family of four could save up to £75 a year on energy and water bills. Similarly, turning off a running tap while you brush your teeth or wash your face can save more than 6 litres of water a minute!

5. Invest in energy saving appliances, like an air fryer – While it's good to buy home appliances based on their energy ratings, it's also good to research alternative types of appliances you can buy. One big change you can make is switching to an air fryer for day-to-day cooking rather than using a gas or electric cooker. Research by Utilita showed that on average they run at £55.91 a year, as opposed to a gas cooker on £121.06 per year and electric cooker on £335.57 per year.

[Access the article '5 practical tips for saving energy costs', in full.](#)

Information Governance

The University of the Built Environment is committed to advancing information governance and compliance, ensuring that the services provided comply with the General Data Protection Regulation (GDPR), Data Protection, Freedom of Information, Records management, Copyright, and Information Security.

Information Governance:

© 2020 iStockphoto LP, Royalty free image

To make sure that information is available in the right place and at the right time to support others, the e-Library ensures that the information services comply with data protection and copyright.

Data Protection

With new technologies constantly emerging and us finding ourselves moving further into an ever more digital direction, our personal data, how it is used and who has access to it becomes a growing and global concern for all.

The General Data Protection Regulation (GDPR) was the first legislative change in recent years to address these concerns, with a broad aim to invoke a cultural shift in the way organisations manage personal data.

Further information, advice, and guidance on Data protection, GDPR and more can be found at the Information Commissioner's Office (ICO), the UK's independent authority set up to uphold information rights in the public interest, promoting openness by public bodies and data privacy for individuals.

CILIP's National Copyright Conference 2025

This year's national & virtual conference is to be held on 22nd May. It has once again been programmed in association with Naomi Korn Associates.

#CILIPCopy25 / #copyright

The Annual CILIP Online Copyright Conference is an ideal and unique opportunity for all librarians, archivists and information professionals to update their knowledge and professional practice in this crucial area. Additionally, it appeals to those who want to update their general copyright, licensing and publishing knowledge, and provides an invaluable forum for in-depth presentations by UK experts, informed debate and opportunities.

2025's Copyright conference explores the latest updates in copyright and licensing. The programme explores different relationships, such as those between [copyright and ethics](#), [copyright and licensing](#), [copyright and creators](#), [AI and IP](#) – and all shades in-between. The programme and further information can be accessed via the [Copyright Conference Programme 2025 webpage](#)

Sessions covered broad copyright impact for the profession incl.

- **Keynote: Impact of copyright on teaching and research in Higher Education.**

Cristina Rusu, *Loughborough University*, will discuss whether reform is needed to support academics to be able to use copyright works lawfully as well as understand how copyright protects their research outputs.

Also:

- **Keynote: Artificial Inventors and Authors**

Professor Ryan Abbots, *Professor of Law and Health Sciences, University of Surrey School of Law*

Over the last few years, artificial intelligence (AI) has begun to step into the shoes of human content generators and

[Back to top](#)

make creative works at scale. Before the end of the decade, a significant amount of art, literature, music, software, and web content will likely be created by AI rather than traditional human authors. How should copyright law deal with this phenomenon?

Never a blank slate: culturally informed copyright services for international library users

***Caitlin Mannion**, Head of Reference and Instruction Services, NYU Shanghai*

Other highlights:

- **Never a blank slate: culturally informed copyright services for international library users** – *Caitlin Mannion, Head of Reference and Instruction Services, NYU Shanghai*
- **IPO Update** – *Margaret Haig, Head of Copyright Delivery, Intellectual Property Office*
CLA Licensing & Technology Updates – *Catherine Stephen, Head of Renewals & Growth, Education & Public Sector, Copyright Licensing Agency*. This session will provide an update on the Copyright Licensing Agency's latest licensing initiatives, including developments around AI and text and data mining.
- **Lightning Talks on The Copyright Toolkit: A scenarios-based approach to providing copyright guidance** – *Diane Crawford-Leighton, Copyright Librarian, University of Exeter, &*
- **Predatory AI and its prey: Copyright IP and DP** – *Agnes Kozłowska, Head of Knowledge and Information Management, Medicines and Healthcare products Regulatory Agency*.

Presentations at the [2024 Conference](#) covered the following areas: ▪ Copyright, ethics and creator's rights; ▪ Regulatory updates in the context of the new Labour Government; ▪ Rights retention; ▪ AI and IP; ▪ Licensing, AI and TDM (Text & Data Mining).

Also:

- **How do we achieve success as Solo Librarians?**

Lucy Roper, Head of Library Services, University of the Built Environment

Being a solo librarian or librarian in a small team with limited help can be daunting. Librarianship is multi-faceted, and while plenty of books cover library work in detail, few provide a single point of reference from the perspective of a solo librarian who must juggle multiple tasks at one time and deal with all aspects of library provision on their own.

AI is creeping increasingly into our lives, and libraries have undoubtedly witnessed a rapid transformation due to AI. As we strive for continual improvement, we must keep abreast of the latest developments and follow the ever-changing library landscapes and popularity of information systems and services, online library tools and technological advancements.

I, therefore, took it upon myself to write a practical handbook providing a one-stop-shop with accompanying time-saving templates (easily downloadable via the eBook version and companion website) that can be adapted to help aid the daily activities and processes (including the effective use of copyrighted material and undertaking yearly copyright reporting) often faced by those working in information, knowledge, libraries and related disciplines.

I follow the year in the life of a solo librarian, providing a yearly planner and timeline of activities, with supporting guidance to aid each step of the way. This guidance can then be applied, adapted and tailored to other working practices. In this lightning talk, I will share the foundations of the book, identify some of the lessons I have learned, and provide examples of the types of guidance available.

Further information is available at: CILIP (2024 '[CILIP Copyright Conference 2024 programme](#)'). CILIP.org.uk, Events.

The Challenges of Remote Working

- The challenges of remote working and points to consider from a data privacy perspective. Provided within this article are points to consider from a data privacy perspective that include:

1. **Have a clear statement to all staff** stressing that “The protection of personal data that we hold, and use is important to us and must be always handled in a way that is compliant with data protection law and our Data Protection and Privacy policies. While we must adapt to comply with the official guidance, we will adjust our working processes to allow us to deliver our services. These are time limited instructions that will be kept under review. At the end of the period then all data that is held temporarily on personal devices as a direct result of this exceptional times, will be deleted.” (Tullo 2020)
2. **Set out what use of data**, contact lists, customer documents are being allowed.
3. As part of this exceptional response to homeworking **keep a full record of where staff are working from and what equipment they are using.**
4. **State that you have assessed the best way of ensuring homeworking efficiency** and are proposing that personal devices and mobile phones can be used. That you will review this [weekly seem sensible at present] in line with experience and how staff report it is working.
5. **Reissue and emphasis your usual security arrangements** – Virus and password protection, not leaving data visible to others, having a PIN code, or not sharing their device with others in their family or household.
6. **Take care to be aware where data is being stored**, even if temporary so that the security risk is managed and assessed.

[Back to top](#)

The Challenges of Remote Working continued.

7. For the **weekly reviews** – have your Senior Leadership Team note the number of staff using personal devices, any queries, or issues they are finding and demonstrate that you are monitoring the situation and are flexible in closing it down if any specific concerns arise.
8. Choose your **collaboration tool of choice** and consider recording online meetings and note actions especially where team members are geographically spread out and where broadband speeds and kit may vary in quality.
9. You might also consider having a **standard introduction for homeworking staff** to explain that they are homeworking and not in the office, so callers understand the position.
10. This is where a nominated **Data Protection Office (DPO)** or Data Officer can support the senior team in the messaging to colleagues.

There are growing numbers of tips and survival guides online that include: Information Commissioner's Office (ICO) [**Data protection and coronavirus: what you need to know.**](#)

[Back to top](#)

Regarding University of the Built Environment, we have followed these pointers:

(i) A clear statement went to staff, and the university has a designated area within their central SharePoint site for Business Continuity Planning (BCP) that has the following folders containing

- Official Communications [Internal and External]
- Human Resources (HR) guidance and support
- Information Technology (IT) technical support, guidance, and documents

Data Protection guidance (incl. a new guidance note entitled, 'Processing Personal data when remote working.'

- The **University of the Built Environment - Data Protection and Privacy Policies** have been updated and should be read in conjunction with IT Policies).
- & Hints and tips for working from home.

(ii) A retention and destruction schedule is in place that collates lists of data used within respective teams and departments; (iii) A register is kept of where staff are working from and equipment used; (iv) Regular online meetings and weekly All-staff keep everyone updated and ensuring regular communication; (v) IT provide regular updates and guidance; (vi) GDPR training was launched to re-enforce the importance of knowing how data is used and where it is being stored, even if temporary so that risk is managed and assessed; (vii and viii) online equipment and collaboration tools are well established at the University of the Built Environment as an online education provider, but are regularly monitored; (ix) As mentioned above, hints and tips for working from home are provided, & (x) University of the Built Environment has a designated Data Protection Officer (DPO). **Please note:** There are regular updates - On the University Website, VLE and within the **Website Home > Study > How you'll learn online > The e-Library** current awareness services incl. **Knowledge Foundations**.

Journal of Online Learning and Teaching (JOLT) – The ***MERLOT Journal of Online Learning and Teaching*** is a peer-reviewed, open-access, online publication that aims to promote scholarship in the use of the Internet and web-based multimedia resource in higher education.

JournalTOCs is the largest, free collection of scholarly Journal Title of Contents (TOCs) [online]. Available at: www.journaltoCs.ac.uk/index.php [accessed 23 February 2026]

JSTOR Open Content – a digital library for scholars, researchers and students, JSTOR provides access to academic journal articles, books, and primary sources in seventy-five disciplines. Note: UCL Press publishes peer-reviewed scholarly monographs, edited collections, textbooks and journals. All of its books are available on: (a) **UCL Press**, and (b) **JSTOR** websites

H

Health and Safety Executive (HSE) is the national independent watchdog for work-related health, safety, and illness. HSE are an independent regulator and act in the public interest to reduce work-related death and serious injury across Great Britain's workplaces. HSE [online]. Available at: www.hse.gov.uk/index.htm [accessed 23 February 2026]

HSE, Health & Safety in the construction industry [online]. Further information is available at: www.hse.gov.uk/construction [accessed 23 February 2026]

HSE Publications [online]. Available at: www.hse.gov.uk/pubns/index.htm [accessed 23 February 2026]

Heritage Alliance – The largest coalition of heritage interests in England, the Heritage Alliance is the umbrella body for national and major regional Heritage NGOs. Heritage Alliance [online]. Available at: www.theheritagealliance.org.uk [accessed 23 February 2026]

[[Back to A to Z](#)]

[Heritage Update: the online edition](#) of the fortnightly Heritage Alliance's **[Heritage Update](#)** e-bulletin [online] and available at: www.theheritagealliance.org.uk/update [accessed 23 February 2026]

[Heritage Help](#) - Created by the Joint Committee of the National Amenity Societies, Heritage Help offers information and advice on matters related to the management and protection of local historic environments. Heritage Help [online]. Available at: <http://heritagehelp.org.uk> [accessed 23 February 2026]

[Historic England](#) is the public body that looks after England's historic environment. Historic England champion historic places, helping people understand, value and care for them. Further information is available at: www.historicengland.org.uk [accessed 23 February 2026]

[Historic Environment Local Management](#) (HELM) - provides accessible information, training, and guidance to decision makers in local authorities, regional agencies, and national organisations whose actions affect the historic environment. Note: All HELM web content on the Historic England website [online] and available at: <https://historicengland.org.uk/services-skills/training-skills/helmtraining> [accessed 23 February 2026].

[Home Builders Federation](#) (HBF) represents and serves its members in a range of ways that include Ensuring senior politicians and government officials are aware of housing issues and the challenges faced by our members; and working with Government officials to ensure housing policies are introduced that facilitate housing supply, in a way that is workable for the industry [online]. Available at: www.hbf.co.uk [accessed 23 February 2026]

[House Building Careers](#) (part of HBF). Here you will be able to learn about the home building industry and how it benefits you, your community, and the country as a whole [online]. Further information available at: <http://housebuildingcareers.org.uk> [accessed 23 February 2026]

[Inclusive Design Hub for the Built Environment](#) is a collection of the latest guidance and best practice on inclusive design in the built environment and a project of **The Design Council** [online]. Available at: www.designcouncil.org.uk/projects/inclusive-design-hub-built-environment [accessed 23 February 2026]

[INFABODE](#) connects its community of users with industry information from the Real Estate sector on one customisable online platform. Infabode reduces the amount of time people spend trying to access key information from the Real Estate industry. **INFABODE** [online]. Available at: www.infabode.com [accessed 23 February 2026]

[Institution of Civil Engineers](#) (ICE) is a registered charity that strives to promote and progress civil engineering. ICE [online]. Available at: www.ice.org.uk [accessed 23 February 2026]

Note: In 2025 **ICE's Virtual Library** and Emerald Insight consolidation: **[Emerald Insight's new platform](#)** brings together ICE and Emerald Publishing content on a single platform.

[Back to A to Z]

Information Management Initiative (IMI) Framework – Here you will find the IMI Framework, the standards, guidance and resources which support you in fulfilling your information management initiative (IMI) obligations. In addition, access further **IMI Framework Resources**.

International Council for Open and Distance Education (ICDE) is the leading global membership organisation for enhancing the quality of open, distance, flexible and online education, including e-Learning. ICDE [online]. Available at: www.icde.org [accessed 23 February 2026]

Institute of Historic Building Conservation (IHBC) is the principal professional body for building conservation practitioners and historic environment specialists working in England, Northern Ireland, Scotland, and Wales, with connections to Ireland. IHBC [online]. Available at: www.ihbc.org.uk [accessed 23 February 2026]

Institute of Workplace and Facilities Management (IWFM) – Formerly the British Institute of Facilities Management, BIFM is now the IWFM. The workplace has been incorporated into their new brand so that the status of the professional can help take careers further, regardless of specialism. IWFM [online]. Further information is available at: www.iwfm.org.uk [accessed 23 February 2026]

IWFM Digital Magazine, facilitate – Informing workplace and facilities management professionals. IWFM *facilitate* [online]. Available at: www.facilitatemagazine.com/ [accessed 23 February 2026]

Investment Property Forum (IPF) – The IPF is the leading UK property investment organisation for individual members. It comprises an influential network of senior professionals all active in the property investment market.

Accessing IPF Research – All reports are held in the **Resource Library**. Summary reports, Short Papers and At a Glance synopses can be downloaded by non-members. **Note:** Following an initial three-month exclusivity period, all full reports are available to download by non-members free of charge.

Investment Property Forum (IPF) Resources [online]. Available at: www.ipf.org.uk/resourcelibrary.html [accessed 23 February 2026]

ITcon – The **Journal of Information Technology in Construction** is a peer-reviewed scholarly journal on the use of IT in architecture, civil engineering, and facility management. *ITcon* [online]. Available at: www.itcon.org [accessed 23 February 2026]
